European Student Card Initiative

What is the European Student Card Initiative?

Straightforward and secure online administrative procedures and putting information at the fingertips of students is essential to boosting student mobility across Europe. It is also crucial to promoting student participation in educational and cultural activities in line with the vision to create a **European Education Area** by 2025.

The European Student Card Initiative will develop an online one-stop-shop through the Erasmus+ Mobile App for students to manage all administrative steps related to their mobility period - before, during and after their stay. It will allow students to find all the information they need to experience a high-quality mobility experience abroad.

The goal is to have full deployment of the Initiative during 2021. By this time, higher education institutions participating in the future **Erasmus+ programme**  will be expected to use the Erasmus Without Paper network to exchange student mobility data. The use of the Erasmus Without Paper network by these institutions will become obligatory according to the below milestones:

- 2021 - to manage online learning agreements
- 2022 - to manage inter-institutional agreements
- 2023 - to exchange student nominations and acceptances and transcripts of records related to student mobility

Participating institutions will also need to promote the use of the Erasmus+ mobile app to ensure that institutions and Erasmus+ students can benefit from increased efficiency in administrative processes. By 2025, all students in Europe should be able to enjoy the benefits of the European Student Card Initiative. To learn more, please **join our webinar – Erasmus Goes Digital!**

What are the benefits of the European Student Card Initiative?

The final countdown!

- All EWP providers keeping up with demanding June deadline
- Key challenges:
 - Enable HEIs to start IIA renewals asap
 - Ensure number of non-connected HEIs is minimal

European Digital Student Service Infrastructure

EDSSI is **the future of student mobility infrastructure**, which will provide a single point of entry to all academic and non-academic services across Europe: **simplified administration, faster processes** and **better mobility experience.**
